DETAILED ACTION

Response to Remarks

1. Applicant's arguments and amendments filed on August 29, 2005 have been carefully considered but they are not persuasive.

The instant Office Action addresses the amended claims, on which Applicant's argument is based, in sections that follow.

Claims 8, 10, and 35 have been cancelled.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. **Claims 1, 7, 9, 11, 13, 14, 17, and 22-24** stand rejected under 35 U.S.C. 102(b) as being anticipated by Orfali et al (Orfali, hereinafter). Orfali reference is based on CORBA and JAVA technologies; Orfali reference incorporates CORBA specifications/documentations at www.omg.org (the website is referenced on page 973 of Orfali). For the purposes of examination, the relevant document is "CORBAServices: Common Object Services Specification." (CORBA_1, hereinafter).

With regard to amended portions of **claim 1**, CORBA_1 shows:

Art Unit: 2143

broadcasting from said at least one external service provider offers that associate with services to an interface entity associated with the data network [See page 16-2 of CORBA_1. Exporting trader (external to an importing trader) sends offers. See section 16.2.7 of CORBA_1.

See paragraph 4, on page 16-2 of CORBA_1. The paragraph describes a client working with a trader, which then sends offers to a federation of traders. Thus, offers are “broadcast” to more than one interface entity.

See Section 161.1 and 16.1.2, which indicate that the message maybe sent to more than one service (“broadcasting”)]

processing the broadcast offers at the interface entity in order to make a decision regarding the acceptance of the offers [See page 16-9 of CORBA_1, Section 16.2.7];

establishing all interfaces required for providing a service connection based on information communicated by means of said protocol [This limitations is substantively the limitation of the original claim 8. As stated in the prior Office Action, in the paragraph that addressed claim 8, Lookup interface provides a query function, to convey information on available interfaces (“establishing all interfaces”). See 16.5.1, page 16-30 and 16-31 of CORBA_1.]

The discussion on unamended portions of claim 1 can be found in the prior Office Action.

Art Unit: 2143

With reference to **claims 7, 9, 11, 13, 14, 17, 22-24**, the reasons for the rejections are provided in the prior Office Action. In the Amendment, Applicant has raised no new issues with respect to the claims.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. **Claims 5-6, 12, 16, 18-21, 27-29, 31-33, and 35** stand rejected under 35 U.S.C. 103(a) as being unpatentable over Orfali and other references that it incorporates.

With reference to amended **claims 27 and 35**, the claims substantively incorporate the amendments to claim 1. The reasons for the rejection of claim 1 apply to claims 27 and 35.

With reference to **claims 5-6, 12, 16, 18-21, 28-29, and 31-33**, the reasons for the rejections are stated in the prior Office Action. In the Amendment, Applicant has raised no new issues with respect to the claims.

6. **Claims 2-4 and 30** stand rejected under 35 U.S.C. 103(a) as being unpatentable over Orfali, in view of “OMG Members Meet o Advance Integration Standards.” (CORBA_SOAP, hereinafter) and Deason.

With reference to **claims 2-4 and 30**, the reasons for the rejections are stated in the prior Office Action. In the Amendment, Applicant has raised no new issues with respect to the claims.

7. **Claim 15** stand rejected under 35 U.S.C. 103(a) as being unpatentable over Orfali, in view of “Parlay APIs 2.1: Generic Messaging Service Interfaces.” (PARLAY_MESSAGING, hereinafter)

With reference to **claim 15**, the reasons for the rejections are stated in the prior Office Action. In the Amendment, Applicant has raised no new issues with respect to the claims.

8. **Claim 25** stand rejected under 35 U.S.C. 103(a) as being unpatentable over Orfali, in view of Webmail.us host webpage (WEBMAIL, hereinafter)

With reference to **claim 25**, the reasons for the rejections are stated in the prior Office Action. In the Amendment, Applicant has raised no new issues with respect to the claims.

9. **Claim 26** is rejected under 35 U.S.C. 103(a) as being unpatentable over Orfali, in view of “Configuring Easy IP” (PPP, hereinafter)

With reference to **claim 26**, the reasons for the rejections are stated in the prior Office Action. In the Amendment, Applicant has raised no new issues with respect to the claims.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
